2. Choose Your Free “.com” Domain & Hosting Package From HostMonster

You’ve seen what your new web site looks like, and you know what it’s about. So go ahead and choose a domain (web address) which relates to the site.

First go to [HostMonster](#) using this link.

IMPORTANT: You MUST use this link in order to qualify for this free web site, free dot com domain of your choice, free web site setup and installation, and free guide to free traffic methods.

Just so you know HostMonster are in my opinion the best web hosting company without a shadow of a doubt. Since I found them I use this company for ALL my new web sites. You can check that I’m telling you the truth about this by doing a [WHOIS](#) search for my new web site:

SecureIncomeSystem.com

You will see that it’s registered with [HostMonster](#).

In the “I Need A Domain” section you can now pick whichever “.com” domain name you want and you will get it for free!

I would choose something like **OnlineBizReviewed.com** which was available when I wrote this report. *Need help thinking of a domain? Use this free service for ideas, visit: [DOMAINS BOT](#)*

Make sure you also check the box that says “Add HostMonster privacy FREE”. You should do this because your personal details will remain hidden from the general public.

You will then be told if your chosen domain is available. If it is, move on to the next step. If it’s not, try another name, but make sure you choose a “.com” domain – they’re the most valuable.

Once you’ve found one you like, fill in the entire form which appears. Make sure all of your details are correct.

VERY IMPORTANT: You MUST choose either the 12 month, 24 month or 36 month account plan to qualify for this free web site, free dot com domain of your choice, free web site setup and installation, and free guide to free traffic methods. I suggest the 12 month plan.

DID YOU KNOW...that you only need 4 people to buy one of the recommended products through your new web site to cover your web hosting fee and later I'll be showing you literally DOZENS of different ways to get free traffic to your site...so it's a no brainer!
